

Environmental Policy

The management of **DV Oilfield Services Ltd.** believes that environmental protection is a responsibility we all share and will strive to maintain a safe and healthy environment far into the future.

Our commitment to protecting the environment from harmful and destructive practices is an integral part of our safety management system and will be attained by following policy as follows:

- Compliance with all applicable governing environmental laws, regulations and standards
- Take our responsibilities seriously for providing and maintaining a safe, healthy and environmentally sound work place by utilizing proper procedures, training and equipment
- Public health and environmental damage are always at the front of company awareness throughout all activity
- Proper disposal of any and all chemical waste in a manner which meets or exceeds regulatory criteria
- Management believes in an open door policy regarding community concerns and will take quick action, should any deficiencies be noted
- All units are provided with Emergency Response numbers for environmental agencies in our area, as well as spill response procedures within the health & safety manuals.
